Titan strikes gold this festival season

Rides the boom as Navratri drums up quarterly demand

RAM PRASAD SAHU
Mumbai, 8 October

The stock of Titan Company, the country’s largest listed jeweller and watchmaker, rose 4.4 per cent after the firm posted better than expected sales growth for the July-September quarter (Q2) of 2025-26 (FY26). Despite a high base, Titan’s domestic revenue grew 20 per cent, driven largely by its jewellery segment. In a pre-quarter update, Titan reported 19 per cent growth in its India jewellery division, which was 300-600 basis points (bps) higher than brokerage estimates.

Titan’s peer Kalyan Jewellers also reported strong growth of 31 per cent in its India operations, led primarily by robust wedding demand and a strong start to the festival season.

The company noted that Navratri sales — not included in the base quarter — partially offset the impact of last year’s Customs duty cut during Q2 of 2024-25 (FY25). Same-store sales growth stood at a healthy 16 per cent.

PN Gadgil Jewellers too reported a solid performance, led with its retail segment growing 29 per cent in Q2FY26, supported by strong store-level numbers and festival season demand.

Most of Titan’s key jewellery brands delivered healthy growth. Tanishq, Mia, and Zoya grew 18 per cent year-on-year (Y-o-Y), while CaratLane posted 30 per cent growth. The company highlighted that rising gold prices pushed up average ticket sizes, offsetting marginal declines in footfall.

The high base of Q2FY25 — due to the Customs duty cut — was balanced this year by an earlier start to the festival season in September (versus October in FY25).

Growth was supported by increased spending on promotions, including exchange offers and marketing campaigns to spur demand amid elevated gold prices. Like-for-like growth for Tanishq and CaratLane remained in double digits. Titan’s jewellery division added 34 new stores during the quarter, taking the total to 1,120.

Among other segments, the watch business grew 12 per cent in the domestic market, led

ANALYSTS EXPECT JEWELLERY MARGINS TO EXPAND BY 210 BPS OVER THE NEXT 3 YEARS, REACHING 11.8% BY FY28, DRIVEN BY A BETTER PRODUCT MIX AND OPERATIONAL EFFICIENCIES

by a 17 per cent increase in the analogue category. The Titan brand posted strong double-digit growth with healthy festival season volumes. Smart wearables, however, remained under pressure, declining 23 per cent, reflecting the overall slowdown in the category.

In eye care, domestic revenue rose 9 per cent, supported by international brands, sunglasses, and e-commerce growth.

Emerging businesses also posted strong gains: fragrances grew 48 per cent on the back of strong volumes in Fastrack and

Skin; Irth bags grew 90 per cent, driven by network expansion; and Taneira saris grew 13 per cent.

Analysts Mihir P Shah and Riya Patni of Nomura said the strong performance came despite a challenging base in Q2FY25, which had benefited when Customs duty was cut from 15 per cent to 6 per cent in July last year, the impact of *Shraadh Paksha* — considered inauspicious for purchases, and gold prices that were up 43 per cent Y-o-Y and 10 per cent sequentially — all of which affected footfall. Nomura has a ‘buy’ rating on Titan with a target price of ₹4,275 per share.

While top line growth has been strong, brokerages expect gross margins to remain under pressure due to surging gold prices. Antique Stock Broking, however, believes steady growth in studded jewellery should partly offset this impact. Improvements in the profitability of the watch segment could also ease some margin pressure.

Analysts at Antique, led by Abhijeet Kundu, expect jewellery margins to expand by 210 bps over the next three years, reaching 11.8 per cent by 2027-28, driven by a better product mix and operational efficiencies. The brokerage has a ‘buy’ rating with a target price of ₹2,615 per share.

FIXED-INCOME INVESTING AFTER RATE PAUSE

Look beyond returns, factor in credit risk and lock-ins

SARBAJEET K SEN

Interest rates in the Indian economy are on a downward trajectory. The Reserve Bank of India (RBI) has already reduced the repo rate by 100 basis points this year. It, however, paused rate cuts for a second time last week, providing relief to fixed-income investors. Rates on bank and company fixed deposits (FDs) have fallen since the start of calendar year (CY) 2025.

“One last rate cut of 25 basis points (bps) is possible owing to the downward revision in inflation projections and the RBI governor’s statement that this opens up space for further policy action,” says Joydeep Sen, corporate trainer (financial markets) and author.

Fixed deposit options

Due to benign inflation, real interest rates (nominal interest rate minus inflation rate) are attractive. For conservative investors in lower income tax brackets,

medium- to long-term bank fixed deposits (FDs) remain a safe investment choice. Those willing to take slightly higher credit risk may consider company FDs or small finance bank FDs.

“Bank FDs are a conservative choice that allows for capital safety, but their yields are quite modest. Company FDs can provide higher returns, but they carry both credit and liquidity risk. Hence, we recommend limiting exposure to top-rated company FDs to not more than 10-15 per cent of the portfolio. Investors should evaluate factors like credit ratings, financials, repayment history, and sectoral diversification before committing,” says Swapnil Aggarwal, director, VSRK Capital.

Bank deposits enjoy additional protection through Deposit Insurance and Credit Guarantee Corporation (DICGC) cover of up to ₹5 lakh per investor, a benefit not available in company FDs.

“Investors should consider diversifying across both bank FDs

and company deposits,” says Pankaj Mathpal, managing director, Optima Money Managers.

Small savings advantage

On September 30, 2025, the government left interest rates on small savings schemes (SSS) unchanged. These remain attractive for conservative investors due to their higher yields and low credit risk. “Schemes like Public Provident Fund (PPF), 7.1 per cent return, tax-free) and Sukanya Samriddhi Yojana (SSY, 8.2 per cent return, tax-free) offer stable and predictable returns along with tax benefits under Section 80C, which makes them highly suitable for long-term goals like retirement or children’s education. However, their lock-in periods limit liquidity. They should be used as cornerstone instruments within long-term portfolios rather than for short-term needs,” says Aggarwal.

Rates locked in at the time of opening bank FDs, fixed-rate bonds, and instruments such as National Savings Certificate (NSC, 7.7 per cent return, taxable) and Senior Citizens Savings Scheme (SCSS, 8.2 per cent, taxable) stay constant till maturity. However, the returns on PPF and SSY can change with quarterly reviews.

Investors should ladder their investments across one-, two-,

three- and five-year maturities to manage liquidity and reinvestment risk better.

Mutual fund opportunities

Investors in higher income-tax brackets may find arbitrage plus debt fund-of-funds (FoFs) useful for steady income. Gains on investments held for more than two years are taxed at 12.5 per cent.

“Investors seeking stability and regular income can consider equity savings funds, income plus arbitrage FoFs, or conservative hybrid funds for systematic withdrawal plans (SWPs). These offer a balance of safety and modest growth,” says Mathpal.

In a low-rate environment, short- to medium-duration funds limit interest rate sensitivity while offering stable returns. Dynamic bond and accrual funds focusing on AA+ and above instruments balance yield and safety. For portfolio stability, blending high-quality debt, hybrid, and multi-asset funds helps cushion volatility and diversify income. A systematic withdrawal plan (SWP) can be set up to meet regular expenses. “SWP is a useful strategy for liquidity flows and is highly recommended,” says Sen.

How RBI’s UDGM portal can help you recover unclaimed deposits

While launching the ‘Your Money, Your Right’ campaign in Gandhinagar last week, Finance Minister Nirmala Sitharaman drew attention to an astonishing ₹1.84 trillion worth of unclaimed financial assets lying idle across banks and regulators. From dormant bank accounts and matured insurance policies to forgotten provident fund balances and old shareholdings, a

vast pool of Indians’ money remains unclaimed.

What is the UDGM portal?

The Unclaimed Deposits Gateway to Access Information (UDGM) portal, launched by the Reserve Bank of India in 2023, is a centralised platform to trace dormant deposits across multiple banks. Over 850,000 users have already registered to locate their for-

gotten accounts, according to data tabled in Parliament. Earlier, individuals had to approach banks one by one.

How to use it to trace your deposits

- Visit udgm.rbi.org.in.
- Select individual tab for personal deposits.
- Enter the account holder’s name, bank name, and at least

one of the following: PAN, voter ID, driving licence, passport number, and date of birth.

The results will show the name, bank, and a reference number. Clicking on the bank’s name takes you to claim process page.

If a match is found, you can initiate the claim with the bank by submitting identity and relationship proof (in case of heirs or nominees).
